

# Cannonao (Grenache, Red Tocai)

It's a highly vigorous vine cultivar, with a medium-to-late bud burst and a medium ripening period. The grape production is good and constant.

It gives a ruby-red coloured wine with an agreeable fruity taste. Depending on the cultivation area and on the productiveness it can give young wines or well structured, suitable to ageing wines.

L'INNOVAZIONE IN VITICOLTURA

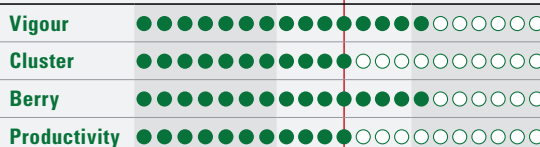

## VCR CLONES

### VCR3

Average of the cultivar

**Origin:**  
Barbarano (VI)

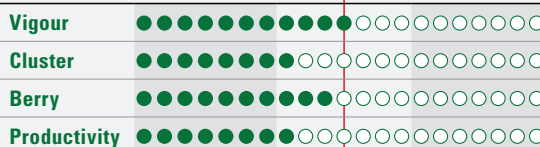

**Oenological aptitude:** this clone is suitable for fruity, well structured wines of medium ageing.

### VCR23

Average of the cultivar

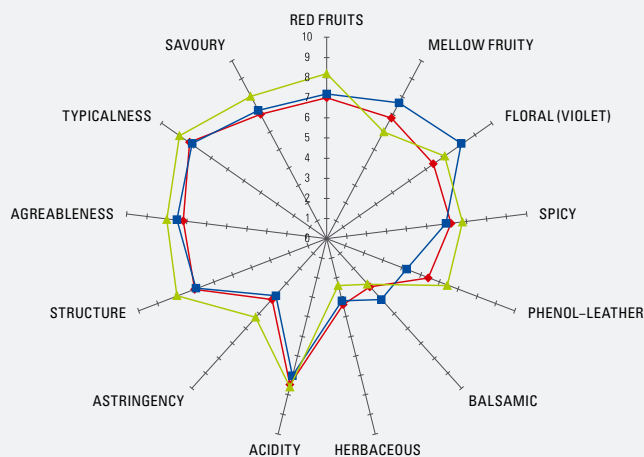

**Origin:**  
Alghero (SS)

**Oenological aptitude:** this clone is suitable for fruity averagely structured wines, also for long ageing.
