

# Montepulciano

It is a vine cultivar of medium vigour with a late bud burst and a medium-to-late ripening period.

The grape production is medium-to-good.

It gives a justly tannic and full bodied wine with an intense ruby-red colour and a dry and fruity taste.

It is suitable for ageing, but it can be used also for young wines, especially if vinified in "rosé" style.

### VCR456\*

Average of the cultivar

**Origin:**  
Chietino Abruzzo

<b>Vigour</b>	●●●●●●●●●●●●○
<b>Cluster</b>	●●●●●●●●○
<b>Berry</b>	●●●●●●●●●●○
<b>Productivity</b>	●●●●●●●●●●○

**Oenological aptitude:** this clone is suitable for fruity-spicy wines with an excellent structure. The polyphenolic complex is very good. It is fit for blending with VCR453 and VCR100 and for long ageing.

### VCR462\*

Average of the cultivar

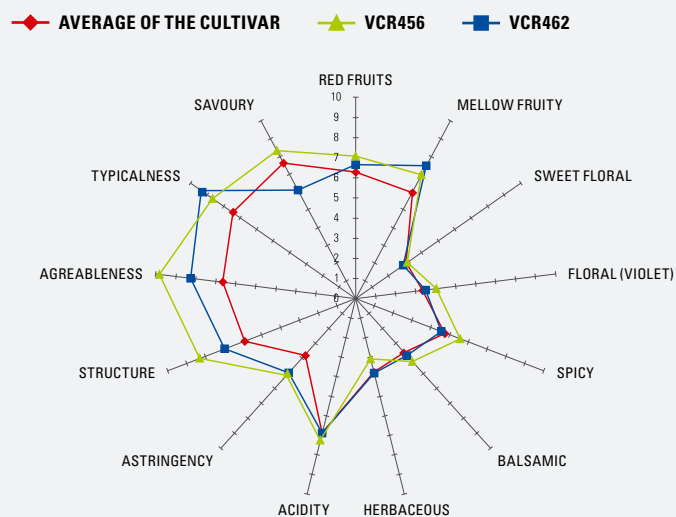

**Origin:**  
Chietino Abruzzo

<b>Vigour</b>	●●●●●●●●●●●●○
<b>Cluster</b>	●●●●●●●●○
<b>Berry</b>	●●●●●●●●●●○
<b>Productivity</b>	●●●●●●●●●●○

**Oenological aptitude:** this clone is suitable for fruity, typical wines, with a good content of anthocyanins and polyphenols and medium ageing potential. It fits for blending with VCR453 and R7 and for production of "rosé" wines.
