

Refosco dal Peduncolo Rosso (literally: "Refosco with the red stalk")

It is a very vigorous vine cultivar, with an early bud burst and a late ripening period.
The grape production is abundant and constant.
It gives a tannic ruby-red coloured wine with a good alcohol content.
It gets considerably refined with ageing.

L'INNOVAZIONE IN VITICOLTURA

VCR CLONES

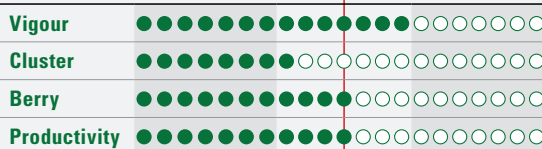

* Clones in course of homologation

VCR14

Average of the cultivar

Origin:
Rauscedo (PN)

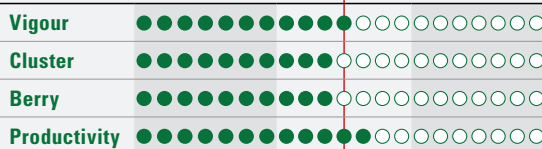

Oenological aptitude: this clone is suitable for fruity, richly coloured wines with a high content of polyphenols and long ageing potential.

VCR473* (PETRUSSI SELECTION)

Average of the cultivar

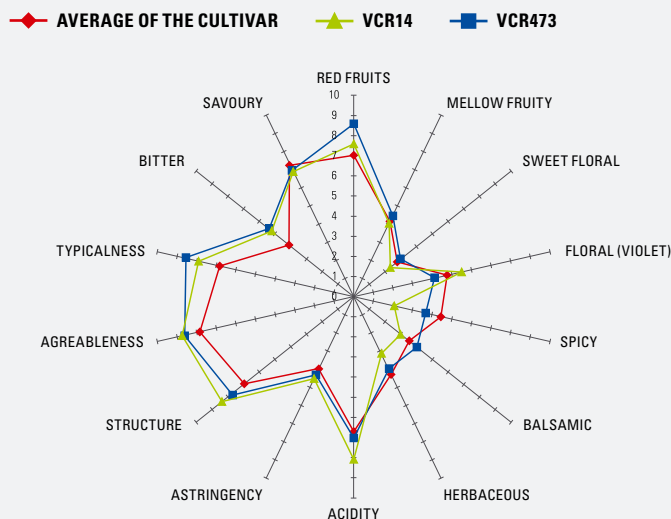

Origin:
Colli Orientali FVG (literally: "Eastern Hills of Friuli")

Oenological aptitude: this clone is suitable for fruity, well structured, medium-aged wines. Blending with VCR14 is indicated.

Sensory analysis:

Other propagated clones: ISVF1, ISV-F4-T
