

# Cardinal

It's a table grape cultivar of good vigour, with a medium-to-late bud burst and an early ripening period. The grape production is good. The weight of the cluster is 500-600 gr and the weight of the berry is 9 gr, the sugar content amounts to 15-16%, the total acidity is 5-6‰ and pH is 3,40. The transportability is fairly good. For its characteristics Cardinal is one of the best early table grapes.
